And my suggestion....we start with all the fields we need as opposed to adding them in the future. If we do that we will know exactly what info to gather.

Here are the first 4 residents - we can update the spreadsheet with accurate info when we have the access forms filled out. The first street address is the physical location of the home followed by the mailing address. Many times the person who was doing the interview did not get the full town address so expect that to be incomplete. The home designation and the resident name will be correct.
